JOURNAL OF THE AUDIO ENGINEERING SOCIETY

SUBJECT AND AUTHOR INDEX

VOLUME 13 - 1965 NUMBERS 1-4

Subject Index

Amplifiers

New Solid State Amplifier for Studio and Broadcast Use, A—William G. Dilley, No. 4, p. 332

Low-Noise Transistorized Tape Playback Amplifier, A—James J. Davidson, No. 1, p. 2

Power Supply for Transistor-Type Amplifiers, A—John P. Jarvis (Letter), No. 4, p. 358

200 Watt Solid State Stereo Amplifier, A—Madan M. Sharma, No. 3, p. 222

Voltage Controlled Electronic Music Modules—Robert A. Moog, No. 3, p. 200

Architectural Acoustics

Acoustical Considerations Corncerning New York State Theater—Vilhelm Lassen Jordan, No. 2, p. 98

Passive and Active Acoustics in Architectural Enclosures—Harry F. Olson, No. 4, p. 307

Audio Systems

Internal, Tissue-Contact Type Microphone-Reproducer Unit for Deep Submergence Communications, An—G. J. Sebesta, A. J. Mellen, A. Hofer and R. W. Carlisle, No. 4, p. 303

Passive and Active Acoustics in Architectural Enclosures—Harry F. Olson, No. 4, p. 307

Power Bandwidth Frequency Response and Music Spectra—Victor Brociner, No. 4, p. 319

Sound System for the 1964 Tokyo Olympics, The—Takeshi Itow, No. 3, p. 232

Disc Recording and Reproduction

Construction of Tracing Correlator Waveforms—Duane H. Cooper. No. 3, p. 236

Design and Use of Recording Styli—Richard Marcucci, No. 2, p. 130

Electrical Loading Networks for Stereo Phonograph Cartridge Transducers—Philip Kantrowitz, No. 2, p. 124

Improved Disc for Master Recording, An—John E. Jackson, No. 2, p. 134

Instruments for Record Cleaning—Percy Wilson (Letter), No. 4, p. 350

Interaction of Tracing and Tracking Error—Duane H. Cooper, No. 2, p. 138

Misinterpretation of Vertical Tracing Error—Duane H. Cooper (Letter), No. 3, p. 272

New Method of Disc Recording for Reproduction with Reduced Distortion: The Tracing Simulator, A—Horst Redlich and Hans-Joachim Klemp, No. 2, p. 111

Record Contamination: Causes and Cure—Percy Wilson, No. 2, p. 166

Techniques for Measuring the Vertical Tracking Angle of Stereophonic Phonograph Pickups—J. G. Woodward, No. 3, p. 241

Distortion

New Method of Disc Recording for Reproduction with Reduced Distortion: The Tracing Simulator, A—Horst Redlich and Hans-Joachim Klemp, No. 2, p. 111

Program Distortion Monitor, A—Joseph H. Dessen, No. 4, p. 346

Transient Response and Cross Modulation Distortion in Magnetic Recorders—Keith Johnson and D. P. Gregg, No. 4, p. 323

Earphones

Improving Headphone Listening Comfort—B. B. Bauer, No. 4, p. 300

Loudspeakers

High-Power, Low-Frequency Loudspeakers—John K. Hilliard, No. 3, p. 229

Low-Frequency Response and Efficiency Relationships in Direct-Radiator Loudspeaker Systems—Roy F. Allison, No. 1, p. 62

Optical Aid for Designing Loudspeaker Clusters, An—

Wilfred A. Malmlund and Ewart A. Wetherill, No. 1, p. 57

Response of Loudspeakers to Tone Bursts, The—Victor J. Kaminsky, No. 2, p. 119

Magnetic Recording and Reproduction

New NAB Tape Standards, The—George Bartlett, No. 3, p. 248

Transient Response and Cross Modulation Distortion in Magnetic Recorders—Keith Johnson and D. P. Gregg, No. 4, p. 323

Magnetic Tape

Precision Performance Measurements on a New Sound Recording Tape—Joseph Kempler, No. 1, p. 50

Measurements

High-Power, Low-Frequency Loudspeakers—John K. Hilliard, No. 3, p. 229

New NAB Tape Standards, The—George Bartlett, No. 3, p. 248

Program Distortion Monitor, A—Joseph H. Dessen, No. 4, p. 346

Researches on Absolute Measurements of Vibration and Sound Intensities—Richard K. Cook, Seymour Edelman, and Walter Koidan, No. 4, p. 290

Response of Loudspeakers to Tone Bursts, The—Victor J. Kaminsky, No. 2, p. 119

Techniques for Measuring the Vertical Tracking Angle of Stereophonic Phonograph Pickups—J. G. Woodward, No. 3, p. 241

Microphones

Circuits of Transistorized RF Condenser Microphones—Hans Joachim Griese, No. 1, p. 17

History and Current Status of Miniature Variable-Reluctance Balanced-Armature Transducers—Richard W. Carlisle, No. 1, p. 45

Internal, Tissue-Contact Type Microphone-Reproducer Unit for Deep Submergence Communications, An—G. J. Sebesta, A. J. Mellen, A. Hofer and R. W. Carlisle, No. 4, p. 303

Transistor Microphone—M. E. Sikorski, No. 3, p. 207

Use of Noise Cancellation in Modern Telephone Practice and Design, The—Gaston A. Marchand, No. 3, p. 218

Music and Electronics

Brandeis University Electronic Music Studio, The—Robert M. Voss, No. 1, p. 65

Duration of Attack Transients of Nonpercussive Orchestral Instruments—David Luce and Melville Clark, Jr., No. 3, p. 194

Integrated Electronic Music Console, An—L. A. Hiller, Jr., No. 2, p. 142

Intensities of Orchestral Instrument Scales Played at Prescribed Dynamic Markings—Melville Clark, Jr., and David Luce, No. 2, p. 151

Power Bandwidth Frequency Response and Music Spectra—Victor Brociner, No. 4, p. 319

Voltage Controlled Electronic Music Modules—Robert A. Moog, No. 3, p. 200

Physiological Acoustics

Improving Headphone Listening Comfort—B. B. Bauer, No. 4, p. 300

Internal, Tissue-Contact Type Microphone-Reproducer Unit for Deep Submergence Communications, An—G. J. Sebesta, A. J. Mellen, A. Hofer and R. W. Carlisle, No. 4, p. 303

Sound Reinforcement

Optical Aid for Designing Loudspeaker Clusters, An—Wilfred A. Malmlund and Ewart Wetherill, No. 1, p. 57

Sound System at the New York State Theater, The—Irving W. Wood and Joel S. Fichman, No. 2, p. 104

Sound System for the 1964 Tokyo Olympics, The—Takeshi Itow, No. 3, p. 232

Standards

New NAB Tape Standards, The—George Bartlett, No. 3, p. 248

Phase Mismatch of a Stereophonic Signal, On the—J. Fleming Dias, No. 2, p. 158

Stereo FM

Design Considerations for Silicon Transistors in AM/FM Multiplex Receivers—R. V. Fournier and R. T. Peterson, No. 1, p. 30

Dynamic Range Problems in Transistorized FM Receivers—J. B. Schultz, No. 1, p. 41

Minimum Rider Circuit for Noise Immunity in a Stereo FM Demodulator, A—Leslie Golonski, No. 1, p. 36

Phase Mismatch of a Stereophonic Signal, On the—J. Fleming Dias, No. 2, p. 158

Survey of Performance Requirements and Design Techniques for Highest Quality FM Multiplex Reception, A—F. L. Mergner, No. 1, p. 23

Technical Contribution to Permit the Addition of Stereo to Mass-Market FM Receivers, A—A. Csicsatka and R. M. Linz, No. 1, p. 38

Studio Equipment

Brandeis University Electronic Music Studio, The—Robert M. Voss, No. 1, p. 65

New Solid State Amplifier for Studio and Broadcast Use, A—William G. Dilley, No. 4, p. 332

Integrated Electronic Music Console, An—L. A. Hiller, Jr., No. 2, p. 142

Sound System at the New York State Theatre, The—Irving W. Wood and Joel S. Fichman, No. 2, p. 104
